WORK EXPERIENCE

CURRENT ROLE

Support Engineer and Digital Developer

COMPANY

IESA

DATES

November 2018 – Present

DESCRIPTION

Accelerated the implementation of OCI and cXML catalogues using Postman and Fiddler. Attended meetings with customers. Championed the need to automation validating excel spreadsheets programming in C# and used RESTful services to update created JSON objects to AWS. Collaborated with colleagues from different disciplines. Documented systems for internal and external stakeholders. Fixed bugs, solved problems, tested code, deployed, and released solutions. Prioritised and managed ticket queue. Secured systems against SQL injections.

PREVIOUS ROLE

Aviation Officer

COMPANY

Manchester Airport

DATES

July 2015 – June 2018

DESCRIPTION

Anticipated uncomfortable situations and supported team members dealing with difficult passengers. Cooperated with the police by assisting as a translator. Screened passengers' baggage and prevented unauthorised items entering the safe area.
